## REMARKS

The August 8, 2007, Office action required election of species and identification of claims readable on that elected species. To expedite prosecution of this case, this Response elects the invention of species C, Figure 5, for prosecution on the merits. Claims 1-3, 5, 6, 10, 12, 17 and 19 are readable on species C.

In addition, to improve the form of the claims and to conform with US claims practice, Applicants amend claims 17 and 19. Applicants' amended claims are now in condition for allowance or, alternatively, serve to present the claims in better form for consideration on appeal. No new matter is added, and each of the amendments finds full support in the claims, specification, or drawings as filed. As such, consideration of the claims on the merits is respectfully requested. Early and favorable action is further requested.

Should the Examiner wish to discuss any of the above in greater detail or deem that further amendments should be made to improve the form of the claims, the Examiner is invited to contact the undersigned at the Examiner's convenience.

Please charge any necessary fees, including any extension of time, or any other fee deficiencies to Delphi Technologies, Inc., Deposit Account No. 50-0831.

Respectfully submitted,

By:
